Public Works is located in the basement at City Hall.

PLEASE NOTE: The information in the City's Monument Mapping Book of May 2000 should be used with caution. This vertical elevation information is on National Geodetic Vertical Datum 1929 (NGVD 29). Any centerline monuments with identified elevations were received from project developers after completion of the associated project. The City does not inspect the condition of identified monuments/benchmarks and does not and cannot guarantee the condition of all monuments/benchmarks. The party requesting this information should verify the condition and location of any monuments/benchmarks.
