

## *SMART Construction News Advisory*

July 29, 2015

# **GRADE CROSSING SAFETY IMPROVEMENTS**

## **At the Intersections of East D Street, East Washington St & Lakeville St**

As SMART prepares for the start of passenger rail service in your area, SMART's contractor Stacy Witbeck/Herzog will be constructing grade crossing safety improvements at the following Petaluma intersections:

**Where: East D St & Lakeville St and East Washington St & Lakeville St**

**When: Monday August 3 — Friday October 30**

Drivers and pedestrians can expect traffic delays, narrowed lanes, closed turning lanes, and modified turning movements in the area during construction. There will be pedestrian access during construction.

Electronic message boards will be placed in advance of lane closures or traffic delays. If possible, avoid these areas and take alternative routes during this time.

**Please note that dates and times are current estimates, and are subject to change.**

**For specific information and ongoing updates on when work is scheduled in a particular area,** members of the public are encouraged to check the SMART construction web page at:  
**[www.sonomamarintrain.org/construction-updates](http://www.sonomamarintrain.org/construction-updates).**

Questions about construction activities that are currently underway can be left on our toll-free Project Information line: (855) 312-7444, or via email at [info@sonomamarintrain.org](mailto:info@sonomamarintrain.org).

Safety is very important to SMART, and we are working hard to maximize safety during our construction phase. SMART's contractor is also coordinating with local Emergency Services on contingency planning in preparation for the crossing closure.

**The public can help ensure safe project completion by following detour instructions and staying clear of all construction equipment and activities.**

Thank you for your patience as we improve the crossings in Petaluma.
