

**CLARIFICATION NO. 1**  
**PUBLIC WORKS AND UTILITIES DEPARTMENT FIELD OFFICE ROOF**  
**OVERLAY AND REPLACEMENT PROJECT**  
**CITY PROJECT NO. C11201912**

July 9, 2018

This Clarification No. 1 includes information about the Public Works and Utilities Department Field Office Roof Overlay and Replacement Project, and shall become part of the Contract Documents for this Project.

NOTE: Underline = Additions  
~~Strikethrough~~ = Deletions

**Existing Roof Construction**

The original construction drawings show four inch (4") thick rigid insulation on top of the metal roof deck and under the existing TPO roofing material. The plans do not show any additional underlayment for the roofing material. The contract specifications for this project are not available.

The contractor shall assume for the purposes of bidding that there is no additional "DensDeck" or similar insulation or sheeting underlayment to the existing TPO roofing material required for removal during demolition.

There is evidence of crickets under the existing TPO for positive roof drainage made from "DensDeck" or similar underlayment material. The contractor shall assume that these crickets will not be removed during demolition.

The specifications require the installation of ½" thick insulation, by the same manufacturer as the roof membrane, prior to installation of the TPO roofing material.

All other items of the documents shall remain unchanged. **A signed copy of this Addendum and the attached acknowledgement form shall be attached to the bid proposal. Failure to do so may cause rejection of your bid as being non-responsive.**
